*Includes Other Income

Press Release: 15th November 2018, Mumbai

I G Petrochemicals Limited, Numero Uno Indian manufacturer of Phthalic Anhydride has declared its Unaudited Financial Results for the Quarter and Half Year ended 30th September, 2018

Highlights of H1 FY19

- **Total Revenue was up 26%** to Rs. 678 crores as compared to Rs. 538 crores in the corresponding period of the previous year.
- **EBITDA up 20%** to Rs. 159 crores as compared to Rs. 133 crores in the corresponding period of the previous year. **EBITDA Margins are at 23.4%**
- **Profit after Tax up 11%** to Rs. 81 crores as compared to Rs. 73 crores in the corresponding period of the previous year. **PAT Margins are at 11.9%**
- During the last quarter, there was a planned shutdown of PA2 plant due to catalyst change

Expansion Project Status

- A Brownfield Expansion is underway of Phthalic Anhydride (PA 4) by 53,000 MTPA which would take our total capacities post expansion to ~2,22,110 MTPA. We expect to commence the production from PA4 during 2019

Commenting on the results and performance, Mr. Nikunj Dhanuka, Managing Director & CEO said:

*"I am pleased to announce that our Company reported **Revenues of Rs. 678 crores** with **EBITDA** and **PAT** of **Rs. 159 crores** and **Rs. 81 crores** respectively in the first half of the year. The demand for the product continues to grow with multiple end users and growth in their industries. Our Capex is in line to capitalise on this growth and economies of scale resulting out of expansion.*

We have best in class recovery processes and operational excellence which helps us maintain our EBITDA Margins inspite of increase in Orthoxylene prices globally.

There was a planned shutdown of our PA 2 plant in this quarter as it required a catalyst change which would further improve its efficiency.

With expansion coming on-stream, along with our efforts of improving operating efficiencies we are confident of delivering better performance in the years to come.

About I G Petrochemicals Limited

I G Petrochemicals Limited being the flagship Company of the Dhanuka Group, is the largest manufacturer of Phthalic Anhydride (PA) in India. It is one of the Lowest Cost producer of Phthalic Anhydride globally. PA is a downstream product of Orthoxylene (OX) a basic Petrochemical. PA is a versatile intermediate in organic chemistry. PA is used as an intermediate for the production of Plasticizers, Unsaturated Polyester Resins, Alkyd Resins & Polyols. PA is used in a variety of application in both consumer durables to non consumer durables. Applications for PA are increasing rapidly, driven by new Research & Innovation. The company has 3 manufacturing facilities at a single location at Taloja in Maharashtra.
